Drawing!

Triangle

Spot-Light

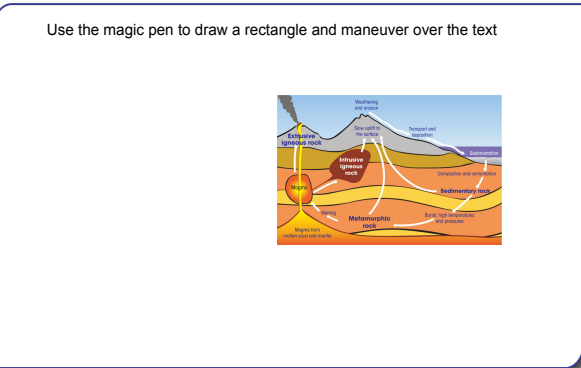

Use the magic pen to draw a circle and maneuver over the text

"Holes," like Swiss cheese, in the rock.		Basalt	Igneous
A shiny and smooth surface, like colored glass.		Obsidian	
Straight or wavy stripes of different colors in the rock.		Gneiss	Metamorphic
Interlocking mosaic of carbonate crystals, characteristic swirls and veins of many colors		Marble	
Individual stones, pebbles, or sand grains visible in the rock.		Conglomerate	Sedimentary
Composed of grains that are mostly skeletal fragments of marine organisms such as coral		Limestone	

This image shows a blank sheet of white paper with horizontal blue or grey ruling lines. The lines are evenly spaced and run across the width of the page, providing a template for handwriting practice. There are no margins, text, or other markings on the paper.

Magnifier

Use the magic pen to draw a rectangle and maneuver over the text

Vocal flexibility:

Make the sound of a train as it goes
up and down the mountain.

The illustration features a large, brown, triangular mountain against a solid orange background. At the top of the mountain, there is a blue, jagged shape representing a lake or a body of water. A small green tree is positioned on the right side of the mountain's peak. A person wearing a blue shirt and pants is climbing the right slope of the mountain. At the base of the mountain, a blue steam locomotive with a red roof and a green freight car is moving to the right, emitting a trail of white smoke.
