

Lessons

From Simple to Sophisticated

- Start by using lessons from others
- Project already created pages (document camera or scanned) to write on board (watching young students write is not effective use)
- Interactive, high engagement lessons
 - use links to internet for websites, video or to an attached download

Vocabulary Builder - Anagrams

Concept Concentration (Pairs)

Water Cycle

Match the vocabulary with an example picture

Categorize

Measurement with Objects

Iteration Use

How many paper clips long is the pencil? _____

How many paper clips tall is the cup? _____

Drag the bar to measure.

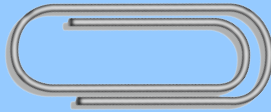

Measure to the nearest 1/2"

Measure the objects and record your answer.

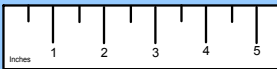

Draw your own lines

Use the pen to draw a line of the specified length.

- 2 inches
- 4 inches
- 2 1/2 inches
- 3 inches
- 1/2 inch
- 5 inches

Math Bingo (0 - 23)

Unit Study - Game

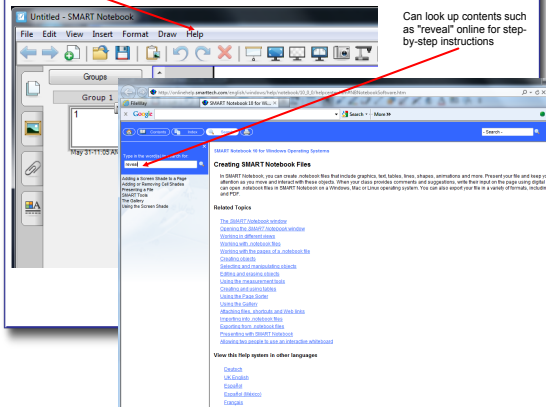

[illegible]

- Set-up not optimal
- Teach SMART Board etiquette
 - Touch only in one spot when writing
 - Don't lean on tray
 - Touch with a purpose (when moving objects)
 - Don't hit/slap the board
 - Students can lose the privilege of using the SMART Board
- Wasting Time (efficiency and optimization)
 - Use templates (re-use; don't recreate)
 - Use SmartExchange
 - Use "My Content"
- Click the "Select" tool
- Didn't lock objects
- Too many "projects" open at once

[illegible]
